

5th Grade Memory Book

Advisors: Mrs. Cersonsky and Miss Aldrich

This after-school club is open to selected 5th graders who are excited about working on the 5th grade memory book. The club typically meets once a month for 90 minutes in the computer lab. The memory book is designed and compiled digitally and is available for purchase by all 5th grade students. It's a really wonderful opportunity to learn digital design skills as well as craft a colorful, quality memory of the last year at Center School.
