

Tech-Sperts

Advisor: Mrs. Redfern

The word "tech-spert" is an abbreviation of "technology expert" - although students do not need to be an expert at the start of this program. Mrs. Redfern chooses 2 volunteer students from each class to learn some tips and tricks so that they can assist their classmates (and their classroom teacher!) with technology. Duties and responsibilities include:

- Keeping the laptop carts in good order
- Reporting laptop issues and problems to Mrs. Redfern
- Problem-solving typical technology issues
- Assisting other students in basic technology skills (printing and saving for instance)
- Create video news segments and/or video book trailers (they write the copy, run the video camera and act as news anchors)

If a student would like to be a tech-spert, they will need to send a letter to Mrs. Redfern explaining why they would be a good tech-spert. Remember, no previous experience is necessary, but I do need students who are responsible and willing to learn.

We meet once a week during recess.
